## PROFESSIONAL EXPERIENCE

### PHP Intern

#### CREATIVE BRAINZ TECHNOLOGIES

(May-2023)

- At Creative Brainz Technologies, I completed an internship focused on backend development using PHP.
- I collaborated with a team to develop and maintain web applications, emphasizing server-side functionality and database integration.
- Notably, I worked on a blood management system, managing and testing backend APIs, while also contributing to frontend development.

### Web Developer as volunteering

#### GOVERNMENT ENGINEERING COLLEGE, RAJKOT

(Sept-2023)

- As the team leader, I spearheaded the creation and launch of the Electronics & Communication Department website for Government Engineering College. Recognized for enhancing online communication and information dissemination within the department, engaging 400 students effectively.
- The website, meticulously crafted to meet institutional needs, includes comprehensive details about the department, faculty, and academic programs. Leveraging expertise in HTML, CSS, and JavaScript, I ensured seamless functionality and an intuitive user experience. Additionally, I utilized Node.js for backend operations and integrated SQL database for efficient data management.
- Collaborating closely with my team, I coordinated efforts to meet project milestones, showcasing both technical proficiency and leadership skills in guiding the team towards achieving our collective goals.

## EDUCATION

- Government Engineering College, Rajkot (2020 - 2024)  
BE, Electronics and Communication  
Current CGPA: 7.59
- Gangotri School, Gondal (2019 - 2020)  
12th Board (HSC)  
Percentage: 65.23%
- B.A.P.S Swaminarayan Gurukul, Gondal (2018 - 2019)  
10th Board (SSC)  
Percentage: 71.83%

## SKILL

HTML5

CSS

JavaScript

Python

PHP

React.js

Redux

Next.js

Tailwind CSS

Node.js

Express.js

Django

MongoDB

MySQL

Git

GitHub

Docker

Azure

## PERSONAL PROJECTS

### NODE JS AUTHENTICATION APP

- Spearheaded the implementation of robust authentication mechanisms, emphasizing JWT token verification for secure APIs.
- Designed RESTful endpoints to ensure seamless interaction with the backend system, prioritizing data integrity and confidentiality.
- Leveraged Node.js and Express.js for scalable backend development, focusing on performance and security.
- Integrated NoSQL database for efficient data management and retrieval, optimizing system responsiveness.
- Implemented secure storage of user information in cookies using JWT tokens, enhancing user experience and facilitating seamless authentication across sessions.
- Demonstrated expertise in authentication protocols, database integration, and cookie-based authentication, contributing to enhanced security and user satisfaction.

### E-COMMERCE WEBSITE

- Developed an autonomous e-commerce platform with robust authentication features.
- Implemented responsive design using Tailwind CSS for optimal display.
- Utilized React-Redux for efficient state management.
- Managed cart functionality with Redux Toolkit.
- Integrated Redux Query for real-time data fetching, enhancing user experience.
- Employed React Router for seamless navigation between pages.
- Demonstrated proficiency in frontend and backend technologies, contributing to the platform's success.
